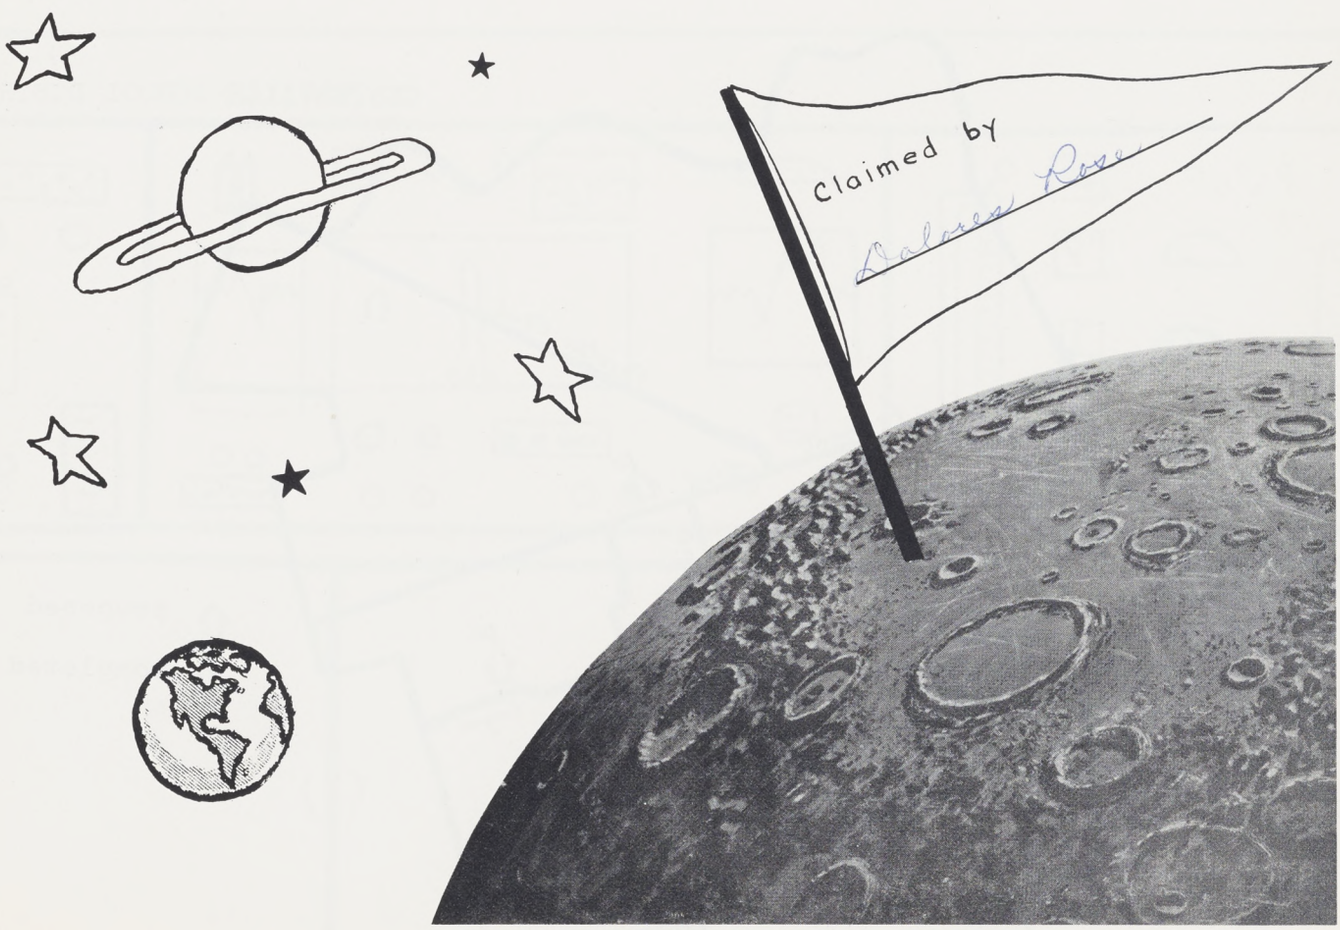
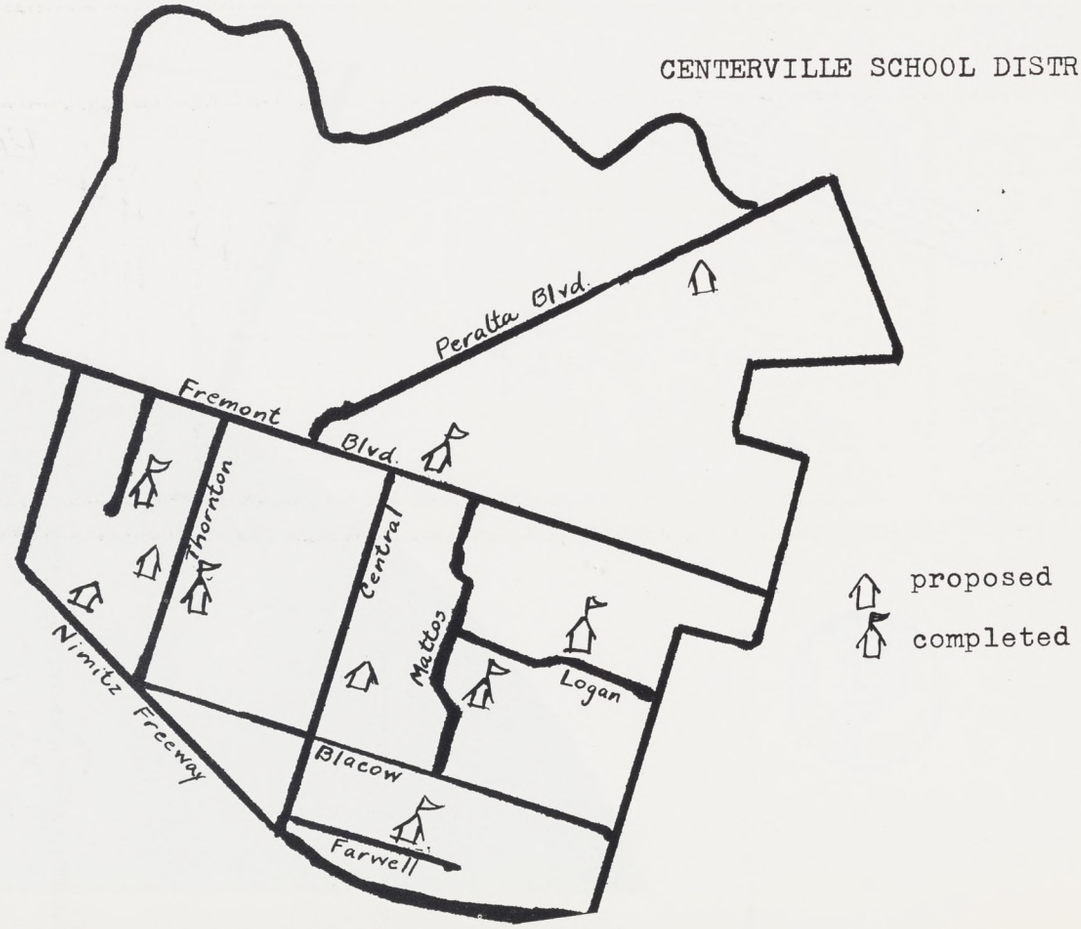
CENTERVILLE SCHOOL FREMONT, CALIFORNIA



Board of Trustees

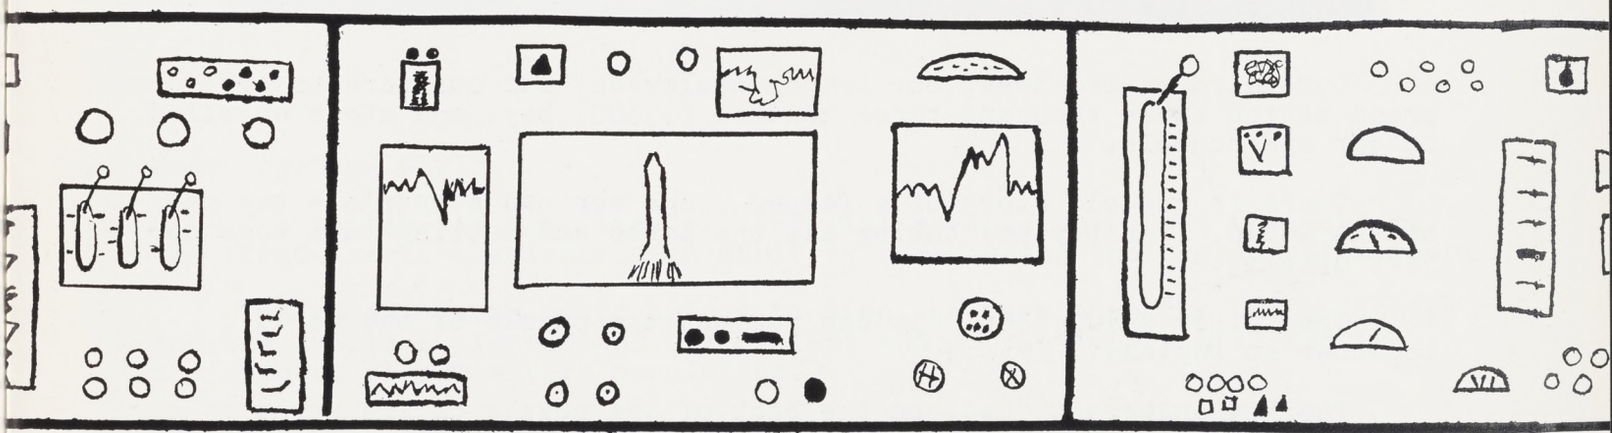
Standing: Elmer Wiesenborn; Holger Rasmussen, M.D., Clerk.

Seated: Elsworth Finlay; Mary G. Rodrigues, President; Claire Lopez.

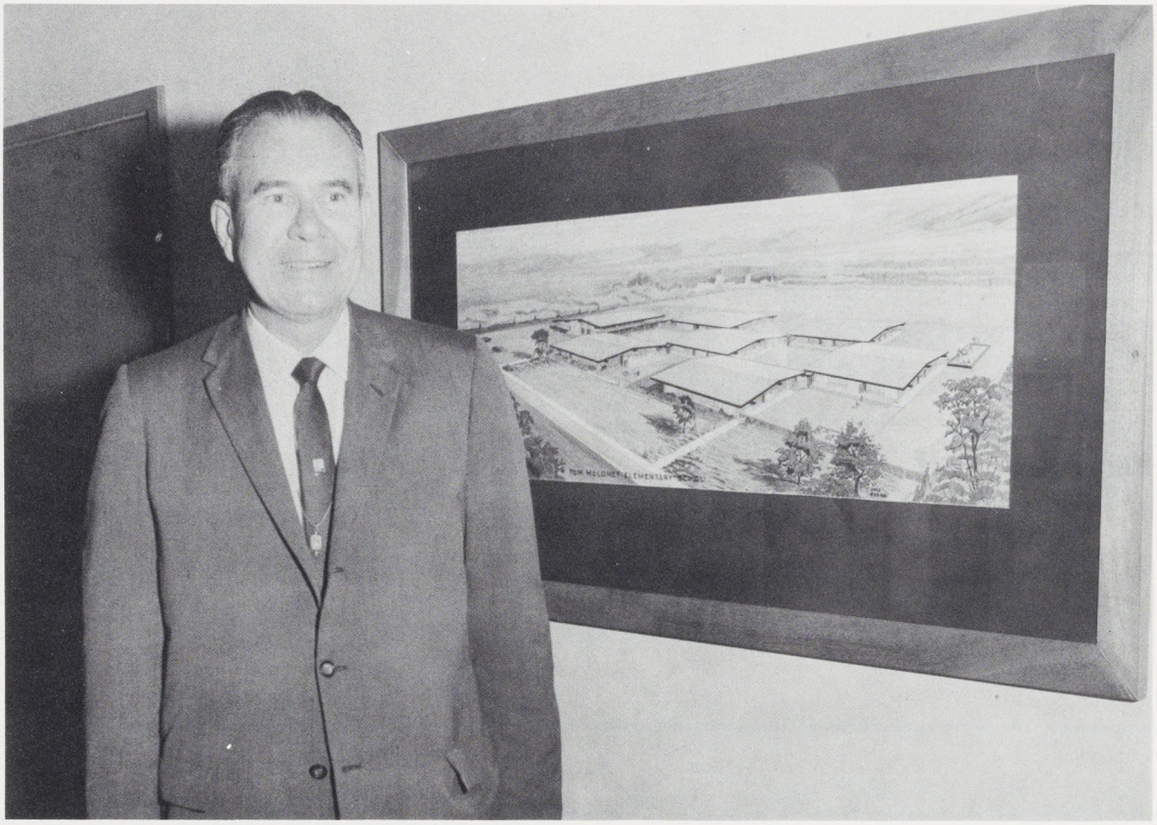


ADMINISTRATION

The Centerville School graduates wish to express their sincere gratitude to the school administrators. By careful direction and programming, we feel that every control has been exercised for our success. We eagerly await "our launch" into high school, confident that we will be "on target" all the way.



Superintendent



Our Board of Trustees, our school employees, and our parents are proud of the three thousand three hundred (3,300) boys and girls enrolled in our six schools.

There is the old story of a father whose son had a puzzle - the map of the world. The boy was taking all the parts and putting them together very quickly.

The father said, "Son, how can you put the puzzle of the world together so rapidly?"

The boy answered, "Dad, on the back of the puzzle of the world is a picture of a boy. I put the boy together properly and the world comes out all right."

We have great confidence in our young people. We feel the world will come out all right. This school district is a better place to live and work because these young people are passing this way.

We wish to say "thanks" to all whose cooperation and assistance have made these very fine "Yearbooks" possible.

Tom Maloney

Assistant Superintendent

Dear Boys and Girls,

The members of the Class of 1962 will be able to recall the year of the first American astronaut in orbit by remembering their graduation year.

The recent earth orbit brings to mind the fact that the United States and the American pioneers of the present and of the future will require the support of our entire population.

You may lend a great deal of support to our country by developing your talents to the best possible degree through the mediums of good education and practical training. Maintain high moral and spiritual values and we should not fear for the safety and world leadership of America.

Very sincerely,

Philip Brazil

Principal

It takes a team working together to win a football or basketball game. In the same way it takes a team working closely together to make a fine school. Centerville is a good school because of team effort and high morale.

School personnel, pupils, and parents all work together to make a good learning climate. Progress has been made this year because of fine cooperation of our boys and girls.

Together we congratulate the eighth grade students as they are graduated into high school. We wish the very best for every one of you.

Arthur H. Schnabel

PERSONNEL

The Eighth Grade takes this opportunity to thank the teachers. By their constant watchfulness, they have made every effort to keep us on the right track and our goal ever in view.
